

Suction Cups & Window Holders

Squeeze Handles To Create Vacuum On Glass

Safe Lifting Weight 10kg

WK410 SINGLE SUCTION CUP

The handle where there is no handle. Designed for attaching to glass, giving you greater control over positioning and moving glass. Attaches or releases in seconds. Provides a strong grip on small glasses.

WK400RS RATCHET STRAP 5Mtr LENGTH

Used for holding glasses in place while the urethane bond cures. Our WK400 double suction cups have a slot in the handle for locating the strap. Also good as a universal tie down strap.

Safe Lifting Weight 30kg

WK415 VERTICAL HANDLE VACUUM LIFTER

The vertical handle vacuum lifter is designed with a light weight composite handle with a flange at the top to enhance your grip. Quickly attaches to glass for superior grip.

Includes warning device to alert of any pressure loss.

Safe Lifting Weight 56kg

WK420 PUMP ACTION VACUUM LIFTER

Designed for car, bus, train and the flat glass industry

- Ideal for curved or flat surfaces
- Red safety band appears on handle to warn you of any pressure loss
