

Glass, Moulding & Bonded Panel Removal System

Nylon control head & adjustable arms regulate cutting depth of all blades to avoid damage to glass, parts or paintwork

Blades cut with precision from inside or outside of the vehicle, against the glass surface, or in the case of an encapsulated glass, the blades will safely cut against the pinchweld or body panel and away from the encapsulation.

All BTB blades can be used in the BTB power tool or in manual handles.

BTB'S POWER TOOL CONTROL SYSTEM & CUTTING BLADES HAVE REGISTERED & PENDING PATENTS & DESIGNS EXTENDING WORLDWIDE

Multi-language training package (Supplied with every Tool Kit)

Collision repairers and dismantlers can easily recycle spoilers, decorative body mouldings and emblems, even from recessed panels.

Same power tool is also a high quality Air Hacksaw

...No Damage to Paint or Mouldings
